The Ever and After

By Rachel Teagle

Theatre Pro Rata
December 7-22, 2019
Performing at The Crane Theatre
The play
Moving through a post-apocalyptic wasteland, super-intelligent cockroach Thurston and his feral human ward Sheelar encounter what appears to be a robot woman named Ida. She is a “birth and companionship unit” who has become separated from what remains of civilization. Together these three, with the knowledge, stories, and dreams they still possess, attempt to determine what dangers and possibilities await them in a very uncertain and threat-filled world.

The playwright

Rachel Teagle is a playwright, librettist, and comedian who grew up in the Silicon Valley, moved around the country, and settled in Minnesota. She helped found the Atlanta Fringe Festival and the Twin Cities Playwright Cabal. She has written many successful adaptations of classic literature for Serenbe Playhouse's award-winning family play series, most recently Robin Hood. She was awarded the Leah Ryan's Fund for Emerging Women Writers prize for her play The Ever and After. She currently resides in St. Paul with her partner, two young daughters, and one old dog.
